Transformer

A big thank you to Hi Point Genetics and Brazel Show Stock for sharing in the Duncan purchase of PHONE HOME (ET x S&L). This exciting prospect is terrific in his rib and has great flexibility, muscularity, bone and balance. He is strongly needed within the Spotted breed for being stress negative, being extremely muscular, wide chested and SOUND! For semen, contact Hi Point Genetics at (877) 247-3636.

PHONE HOME will take you places you've never been.

Can it be? Can PHONE HOME equal or surpass the success generated by Transformer, our 2010 Fall Classic Champion and recently named the 2012 Spotted National Sire of the Year? Time will tell. Congratulations to Upperhand Genetics and customers on their success with Transformer progeny.

\$4,500 Second Class 3 Gilt
Littermate to Phone Home

Thanks to 3rd Generation Genetics for their purchase of this popular ET x S&L daughter at Duncan. Muscular, stout and from a really good litter and mother, we think this one is really good.

Second Class 2 Gilt

This ET x Sunrise daughter combines feet and leg correctness, rib, longevity, muscle and balance and got a great home with Buddy Moss for \$2,200. Thanks Buddy for your selection of this exciting female.

\$2,000 Class 2 Gilt

Thanks to 3rd Generation Genetics for also selecting this ET x Rampage daughter at Duncan. Some people liked this one the best of all and we feel strongly her muscle, bone and power will be strong.
